Virginia Mayo, star of stage, screen, radio, and television will be Queen of the 17th Annual Palm Springs Mounted Police Rodeo and parade, it was announced today by Kenny Paul and Mac McDonald, co-chairmen of the Rodeo Committee.

Riding as Grand Marshal of the parade will be Michael O'Shea, Miss Mayo's husband and an actor himself.

FINAL PLANS will be drawn for the big event at a meeting this week of the Rodeo committee, and according to McDonald, requests by equestrian units, bands, and special entries to march in the parade are already pouring into the Mounted Police Rodeo headquarters.

Rodeo headquarters this year are located at Rasmussen's Saddlery and Western Wear store at 1151 North Indian Avenue, across from El Mirador hotel.

O'Shea and Miss Mayo officially accepted the invitation last week.

Airport Master Plan Hearing Set for Jan. 16

Palm Springs Planning Commission will hold its second public hearing on the proposed Airport Master Plan at 3:15 p.m., Wednesday, in the city council chambers, with interested persons invited to present their views.

The commission will give further consideration to the master airport plan prepared by Leigh Fisher and Associates, airport consultants, and present to answer questions will be H. K. Friedland, who was in charge of much of the field investigation and recommendations for the report.

Under particular discussion will be the projected passenger usage of the airport, facilities, future needs, the physical requirements of the master plan including the terminal area and runways.

John Miller, planning commission chairman, will preside at the hearing.

Under items to be discussed by the commission are: Front yard setbacks, the new Caltrans station site at the airport, amendment of the ordinance code to permit extraction of minerals in water course districts, proposed expansion of the Boy Scout house on Sunny Dunese.

THE PRESIDENT Monday talked to farmers and ranchers and made on the spot investigations in Texas, Oklahoma and New Mexico. He spent the night at Davis Monthan Air Force Base in Tucson, Ariz.

Mr. Eisenhower met a group of Arizonians at breakfast today and listened to their troubles and recommendations for relief. They asked for extension of the emergency hay subsidy to include cottonseed feed.

THE LAST TWO points Mr. Eisenhower will visit before his plane takes off for Washington tonight are Garden City and Wichita, Kan. At Wichita, where his 4,500-mile drought tour will end, Mr. Eisenhower will speak before a special drought conference, including representatives from 15 states.

British Cabinet Meets for First Time; No Report

LONDON — The new British Cabinet headed by Prime Minister Harold Macmillan met for the first time today.

The meeting was at 10 Downing St., official residence of Britain's Prime Minister. As is customary, no announcement was made on the topics discussed.

Rain Closes Streets, Floods Swim Pool

Palm Springs received an inch of rain over the past three days, and as a result Public Works director Frank Hamerschlag is now planning for repairs along the highways and by-ways of the city.

Heavy water runoff from the mountains, via Tahquitz Creek, caused the closing of Sunrise Way, with water running as much as a foot and a half deep; the undermining of an abutment on the footbridge across Tahquitz wash; and the flooding of El Cielo.

BETWEEN THE city limits and Outpost Estates, water flooded down the Whitewater channel, running more than a foot deep for almost 100 yards.

In one complaint to the city engineer's office, Mrs. Jesse Hardy of 1253 Linda Vista Drive, said that because of a low spot on that street, water flowed down her driveway, and held in bounds by

a wall, filled the back yard with six inches of water. Her main complaint was that she had to have her swimming pool cleaned out, because the sand and dirt settled to the bottom, as the pool filled to six inches above the top.

ACCORDING TO the weather instrument station at Ramon and Sunrise Way, Palm Springs recorded .03 of an inch on Saturday; .95 of an inch on Sunday; and .02 of an inch on Monday.

A resident near the intersection of Alameda and Hermosa told the engineering department that he was unable to get to his home because a dirt street was flooded.

Water, cascading down Tahquitz creek in the heaviest runoff in more than three years, caused the undermining of an abutment on the foot bridge across the wash at the end of Camino Real. The city has started repairs of the bridge.

No Relief Seen From Cold Wave

New York State Records Marks Up to 50 Below

By UNITED PRESS

No relief was in sight today from a frigid cold wave that has gripped most of the nation, causing at least 16 deaths.

While the East continued to shiver through zero and subzero weather, a new invasion of arctic air blew into the northern plains, whipping up fresh snow storms.

Temperatures plunged to as low as 50 degrees below zero Monday in upper New York State. At New York City, the mercury dipped to three degrees above zero at 4 a.m. today, making it the coldest day since Feb. 3, 1955 when a reading of zero was recorded.

TEMPERATURES moderated over night in the north and central plains, the Mississippi Valley and the Great Lakes, but still hovered near the zero mark.

The coldest overnight readings, however, were reported in upper New York and in New England.

Monday, Mountain View, N.Y., had 50 below; Massena, N.Y., 45 below; Albany 24 below and Syracuse 17 below. A reading of 20 below was reported at Burlington, Vt.

New York Monday had a low of 7.8, the coldest since Dec. 31, 1955.

THREE DEATHS due to cold and exposure occurred in New York state, two in New England and one in Iowa.

An explosion and fire due to a broken valve in a gas line at Syracuse threatened to shut off gas service to three upstate New York counties during the night. Temperatures ranged from 15 to 25 below in the affected counties of Jefferson, Oswego and Onondaga.

In the Midwest, a rash of fatal home fires broke out in the cold belt. Three children were killed and four others were injured in two fires at East St. Louis, Ill. A home fire at Jordan, Iowa, forced seven members of a farm family to flee into below zero temperatures.

Survivor Tells Of Explosion In Death Plane

LONG BEACH, Calif. — A surviving flier told today how a hard explosion shook a Marine AD-5 Skyraider plane shortly before it crashed in flames into an industrial section where it cut a swath of death and destruction.

Cpl. Joseph P. Licato, 20, radar operator, said there was a "tremendous" explosion in the engine of the two-place propeller-driven aircraft Monday just before he parachuted to safety.

THE FLAMING plane crashed into an iron works and book bindery, killing three persons and injuring three others.

The dead were identified as the plane's pilot, Marine 1st Lt. Dale Fortine, 26, and two persons inside the bindery, Austin W. Rafferty Jr., 43, co-owner of the firm, and Mrs. Ethel Foust, 38, an employee.

McCARTHY PLANS Brennan Attack

WASHINGTON — Sen. Joseph R. McCarthy (R-Wis.) said today he will oppose President Eisenhower's nomination of William Joseph Brennan to be Supreme Court Justice.

McCarthy acknowledged that Brennan appears to "have the votes" to win confirmation by the Senate. But he said he would be "derelict" in his duty if he failed to call the Senate's attention to speeches in which, he said, Brennan criticized congressional committees exposing communists.

The lad was injured when he apparently ran into a car that was about to make a right turn into the driveway between Robinson's and the Desert Inn Coffee Shop. At right in above photo, William Shoffit, driver of the car, holds a towel that was wrapped around the boy's foot. The boy was driving a motor scooter and according to witnesses attempted to pass the car on the right. (Desert Sun Photo).

Shivers Names Ike Democrat As U.S. Senator

AUSTIN, Tex. — Gov. Allan Shivers of Texas, as his last official act, today appointed Dallas attorney William A. Blakley, a "loyal Democrat" though an Eisenhower partisan, to the U.S. Senate succeeding Gov. elect Price Daniel.

Senate Democratic Leader Lyndon Johnson (D-Tex.) announced in Washington Blakley will vote with the Democrats, thus continuing 49-47 Democratic control of the Senate.

BUT BLAKLEY, at Dallas, refused to say whether he will vote Democratic or Republican as interim senator from Texas.

"It's not voting time," he said. "I don't think we ought to talk voting now."

CATHEDRAL CITY Area Business Association will hold its regular meeting at noon Wednesday, Jan. 16, at Cisco's.

All interested persons, as well as members, are invited to attend.

Expansion of Sewer System Termed 'Vital'

"AT THE present growth of this community, the local sewer system will reach its capacity sometime between one and two years, and unless a new system is built it will mean that sections of the city will have to be closed off from the system."

This report was made to the city council by Director of Public Works Frank Hamerschlag, during a meeting of that body yesterday at El Mirador Hotel.

REPRESENTATIVES of the J. B. Hanauer Company, consultants, told the city at the same meeting that cost estimates for the new system had been reduced from \$4,025,000 to \$3,850,000. After checking the complete program, the council plans to inaugurate a bond election at its next regular meeting.

Under the program outlined by William L. Fieldman, the proposed cost of building and maintaining the sewer system will be paid by the sale of general obligation bonds, plus minimum service charges of \$1.85 for presently sewer-served areas and \$2.60 for areas to be served and an ad valorem tax to be levied in the first year the bonds are outstanding of about 28 cents per \$100 assessed valuation, with a gradual reduction of this tax rate to zero in the tenth year.

Youth Injured As Motor Scooter Runs Into Auto

Charles Keet Curran, 15, was injured late yesterday afternoon while riding a motor scooter south on Palm Canyon Drive, he assertedly ran into an automobile that was in the process of making a right turn.

Witnesses to the accident said that the boy, who was riding with another lad on a motor scooter apparently failed to see William Ellis Shoffit, 29, who had started to turn into the driveway between Robinson's and the Desert Inn Coffee shop, and ran into the car.

SHOFFIT, who lives and works at the Desert Inn, was not cited by investigating officers.

The youth suffered a crushed left foot, and was rushed by Wiefels and Son ambulance to the Desert Hospital where he was taken to surgery. Hospital officials said his foot would be alright, but he will be hospitalized for a few days.

WHILE THE BOY waited for an ambulance, police officer Bill Madsen took off his belt to use it as a tourniquet to stop the flow of blood.

The boy is the son of Mrs. Adel Rodman of 362 Chino Drive, Palm Springs.

AREA BUSINESS Group to Meet

Cathedral City Area Business Association will hold its regular meeting at noon Wednesday, Jan. 16, at Cisco's.

All interested persons, as well as members, are invited to attend.

FIRE DESTROYS Four Airplanes

MCCORD AFB, Wash. — Fire fed by exploding cans of paint, gasoline and tires roared through two maintenance hangers at McCord Field near Tacoma, today, destroying \$3 million worth of airplanes.

An Air Force spokesman said damage to the hangers was "severe."

The blaze broke out about 5:30 a.m. PST and was brought under control two hours later.

Four planes were destroyed in the hangers. Lt. Alex Crewson, public information officer at the base said a C124 Globemaster worth approximately \$1.7 million and a C118 transport worth about \$1.3 million were damaged beyond repair. Two smaller planes received partial damage.

NEGRO LEADERS Use Gandhi Policy

MONTGOMERY, Ala. — Negro leaders of the Deep South bus integration movement embarked today on a Gandhi-like non-violence policy which they hope will "shame" white extremists who dynamited churches and homes in Montgomery.

The Rev. Martin Luther King, leader of the Montgomery movement, declared the policy Monday night at a mass meeting of Negroes and then collapsed and had to be helped to his seat.

"If anyone be killed, let it be me," King said in a emotion-charged prayer.

The council hopes to call the bond election for March of this year, and at its next regular meeting will set the calendar for procedure.

Blunt View Given Senate Committees

Says Country Faces War If Turned Down

WASHINGTON — Secretary of State John Foster Dulles said today there is "very great likelihood" this country will have to fight in the Middle East if Congress refuses to approve the "Eisenhower doctrine."

The President wants Congress to adopt a resolution authorizing him to use force, if necessary, to prevent Soviet aggression in the Middle East.

Dulles testified for the second day at a joint meeting of the Senate Foreign Relations and Armed Services committees.

HE ENCOUNTERED considerable skepticism about the resolution from Democratic members. Sen. Mike Mansfield (D-Mont.) asked if any Middle East nation faces a threat of "overt Soviet attack."

"I think they do face that danger, yes," Dulles said.

United States Expels Soviet Military Attache

WASHINGTON — The United States has expelled an assistant Soviet military attache for "improperly" buying electronic equipment and trying to purchase "classified military information," it was announced today.

In a terse note delivered Monday night, the United States declared Maj. Yuri P. Krylov persona non grata unwelcome and demanded his "immediate departure."

The State Department said, in announcing the ouster, that Krylov had improperly purchased electronic equipment.

"On various occasions, Maj. Krylov had purchased such materials through American intermediaries," the department said. "In addition, Maj. Krylov had attempted to purchase classified military information."

State Approval Of Bids Expected

City Manager R. W. Peterson told the city council at its luncheon yesterday that the city was expecting state approval from the Department of Finance on the removal of the buildings on the Linau Village site by Jan. 23.

As soon as state approval is returned, work will begin immediately on clearing the site.

Democrats Take Control of 3 Key Senate Posts

SACRAMENTO — Democrats took over the chairmanship of three key state Senate committees today.

The new Rules Committee of the upper house, controlled by a 3-2 margin by Democrats, announced the chairman and members on 21 standing committees on Monday.

To head up the important Finance, Labor and Governmental Efficiency committees, all posts held by Republicans in the previous session of the Legislature, Rules named:

James J. McBride, (D-Ventura) to be chairman of Finance, replacing retired Sen. Ben Hulse (R-El Centro).

Earl Desmond (D-Sacramento) to head Governmental Efficiency, replacing retired Sen. Harry L. Parakman (R-Millbrae).

Robert I. Montgomery (D-Hanford) to chairmen the Labor Committee in place of F. Presley Abshire (R-Geyserville).

Bus Drivers See Road Safety Demonstration

Actual road safety demonstrations were held last week for all school bus drivers in the Palm Springs Unified School District. It was reported by George Bond, supervisor of pupil transportation.

The road tests were part of a special safety meeting in which Officer Ivan Baldwin of the California Highway Patrol and Sgt. Bob Young of the Palm Springs City Police participated.

The meeting was part of the special attention currently being given to safety by school officials. Bond, recently appointed by Dr. Wallace R. Mueller, superintendent to head up the school safety programs, is also representing the schools on the Palm Springs Safety Council. Bond said "that a everything is being done to maintain our excellent bus record even though the number of buses and the miles travelled continue to increase."

Postal Receipts Pass \$250,000 Mark Last Year

Palm Springs postal receipts ranged past the quarter-million-dollar mark for the first time in history last year as Postmaster Merritt Williams tallied \$259,192 worth of resort postal business in 1956.

Previous records toppled under the weight of the figure that represented a seven per cent gain over 1955, when the post office counted \$241,095 in receipts.

Oddly enough, the biggest postal gains were noted in the months of July and August last year when heavy building programs were underway in the Palm Springs area, Williams said.

Exterior of Courthouse To Be Renovated Soon

The supervisors instructed County Administrative Officer Clay Begole this week to proceed with the painting and renovation of the outside of the county courthouse in Riverside for which \$25,000 has been budgeted.

The action was sparked by criticisms hurled by Supervisor Curtis Chamberlain on the appearance of the courthouse and courthouse grounds. He said his brother Elks whose headquarters are in the building across from the courthouse on 11th Street have complained about dead branches in trees on the courthouse lawn and the general appearance of the courthouse.

Turning to the group of department heads on hand to witness the first meeting of the new board, Chamberlain singled out County Recorder Jack Ross. "What do you think about the condition of the outside of the courthouse?" he asked.

"I think it's high time the courthouse was renovated in keeping with the community," said Ross without hesitation. "The screens

Dick Takvorian Hero, Modest

Richard Takvorian, son of Mr. and Mrs. James Takvorian, of Palm Springs, today disclaimed any title of heroism for the rescue Friday of a mother and child from a blazing Los Angeles home.

Takvorian, whose parents live at 875 Prescott Drive, and Dale de Mott, of Los Angeles, were credited with saving the life of an unconscious woman and her daughter caught in a blaze at their Westchester home.

The two men were driving in separate cars past the house when they were summoned by the cries of a little girl. Spotting the flames leaping from the second-story apartment of Mrs. Sally Gordon, the two men dashed into the blazing structure and carried the woman and her daughter, Reeda, 9, to safety. Both victims were badly burned, but alive and safe.

RICHARD TAKVORIAN of Los Angeles, son of Mr. and Mrs. James Takvorian of Palm Springs, rescued a mother and her daughter from their burning home in Los Angeles Friday. While passing the structure he saw the flames and with the aid of another man brought Mrs. Sally Gordon and Sally, 9, to safety before fire equipment arrived. (International Soundphoto).

MR. AND MRS. GLENN H. Looker, professional handwriting analysts, formerly of Hobart, Ind., and now of Orchard Villa Trailer Park, entertained the young people of the Community Church Sunday evening. They illustrated their lecture with a chalk-talk, explaining the mysteries and possibilities as revealed by writing. A question period followed, after which the script of many of those present were analyzed.

Mysterious Prowling 'Cat' May Turn Out to be Dog

Palm Springs' mysterious prowling "cat" was still a mystery today, but city humane officers indicated it was a waste of time to pursue the phantom feline any longer.

"No one has ever seen it," said Humane Officer Bill Mueller. "It might even be a big dog living in the area. We're not sure what it is, but there's no cause for alarm."

MUELLER AND off-duty city police officers have been scouring the desert area south of Ramon Road and east of the high school for the animal that left cup-sized tracks near several homes sometime last week.

"We've had no reports of new tracks over the weekend," Mueller said, "and since there have been no actual sightings, we have decided to drop it until someone actually sees the cat."

MUELLER ASSURED residents there is no danger, pointing out that "nothing has been missing." He said there has been no evidence of looted garbage cans which would tend to hold up a theory that a mountain lion or bobcat may have been forced out of the mountains to forage for food.

"Right now, we're not even sure that it's a cat," Mueller said. "At any rate, whatever it is, it seems to have left the area, so I don't think there's anything to be alarmed about."

FAIR REPRESENTATION
MAY COME AT LAST

Hope that Palm Springs and the rest of the Coachella Valley can look forward to better treatment by the County Board of Supervisors was evidenced last week when Supervisor Curtis Chamberlain called for "a marriage" of all Riverside county communities, and asked that all sections pull together to solve the county's problems. This can be accomplished with the support of this district's Supervisor George Berkey, and Supervisor Paul Anderson, who form a new control of the board.

For more years than we care to remember, the huge and fast-growing Fourth District — which provides about 40 percent of the county's revenue — has not been given proper consideration by the county's governing body. More often, the needs of this area have been badly neglected.

This situation was not representative of residents in other parts of the county but came about through political control of the board. Now that this combination has been broken we can look forward to better representation — perhaps even re-districting. Even that is not so important if we can expect fair treatment on this side of San Jacinto mountain.

Needs of Area Outlined

The three supervisors named met last week with 26 Coachella Valley civic and business leaders and promised that this section would be "recognized" by the board hereafter. It had been pointed out to them by Lloyd Loveland, Indio civic leader, that there are three distinct categories of growth in this valley which

should be protected by the board: 1) Resort development in the Palm Springs, Palm Desert and Desert Hot Springs section; 2) The agricultural empire around Indio which produced \$27 million worth of products last year. 3) A new industrial potential that has already shown great promise.

Only last week The Desert Sun predicted that this sort of a balanced economy assures a brilliant future for all of the Coachella Valley. With the cooperation of the County Government, the area can develop more rapidly and soundly. Badly needed county facilities must be provided soon to keep pace with growth. With this in mind, it was very heartening to read the statement of George Berkey that "the supervisors plan to mobilize the brain power of Riverside County and get something constructive done."

All Sections Can Prosper

There is, of course, no reason why all sections of the county cannot work and prosper together as Supervisor Chamberlain suggests. The whole county is enjoying sound and steady growth. We think the Coachella Valley is out-distancing the rest of the county, but it isn't. In its vast reaches from the Colorado River almost to the Pacific Ocean, Riverside County is enjoying growth and prosperity. Almost every section is going forward — creating demands for new roads and extended county facilities.

And now there is reason to feel very optimistic over the prospects of cooperation from the county's governing body, which has been lacking for so many years.

HOLMES ALEXANDER:

Needed: Some New Ideas

WASHINGTON, D. C. — "President Eisenhower," said Vernon J. Veritas, "is my candidate for just about everything with one exception. Thus far in 1957 I would never nominate him for first prize in originality."

That's no way to talk about the President's Middle East policy, Mr. Veritas was told.

"Arms and alms," said veritas, a man with a compulsion for telling unpleasant truths. "We rattle the sword for Russia, and we rattle the coins in our pocket for Middle East natives. Wouldn't you think Ike could come up with something better than those old chestnuts?"

Mr. Veritas was told not to be disrespectful of his betters. "Can't help it," he replied. I'm one of those who believe that Mr. Eisenhower had a real talent for innovation. That atmosphere of peace plan was his idea. So far it's made amazing progress. It may be one of the really constructive plans of the 20th Century. Then at Geneva in July, 1955, the President left his aides openmouthed by proposing aerial inspection as half-way house toward eventual world disarmament. Aerial inspection may have bugs in it, but it's a truly original thought. It may be the gimmick for partial disarmament in Central Europe."

It was admitted that Mr. Veritas had something there. The President isn't given the credit he deserves for being an idea man. Moreover, there was something very refreshing about Ike's handling of the Suez Canal crisis last autumn. For a while it seemed we had an American foreign policy that wasn't altogether for foreigners.

"So now he turns back the clock," moaned Veritas. "He backslides to the Greek-Turkish policy of 1947 and the Formosa

policy of 1955. If I may say so without facetious comparisons, there used to be a famous Southern story about a boy named Epamanandus. His mammy told him the way to handle fresh butter was to wrap it in leaves and put it in the stream. Well, next day this kid acts on yesterday's instructions. He wraps a loaf of bread in leaves and put it in the stream to keep fresh. His mammy tells him the way to bring a puppy-dog home is to tie it on a string and walk down the road. Next day the kid ties a jug of molasses to a string and drags it down the road."

Was Mr. Veritas saying that . . . ?

"I'm saying," he answered, "that Greece and Turkey aren't Egypt and Syria. A policy that worked in the Formosa Strait almost certainly won't work in the Suez Canal. The Middle East is anti-Western because of Western militarism. You don't cure that sort of antagonism by a revival of militarism or by protecting people who don't want your protection. It looks to me as if the proposed Middle East policy is intended to stick British and French flags on the maps. Wouldn't you think we'd learned better than that in the six-year war of French Indochina?"

Arms to the imperial powers! Alms to the barefoot natives! Well, to tell the truth, it did read like a pretty threadbare script.

"I had a wild hope," confessed Veritas, "that the President with his proved capacity for original ideas would address himself to two fundamental facts of Russian policy toward the Western World. Both of these facts antedate Communism. They characterize Russia and not merely Soviet Russia. They are so well known that it's incredible how they are consistently ignored."

One fact would be that Russia leaders (whether czars or commissars) live in genuine dread of Western invasions.

"We don't have nearly enough truth-telling on that score," said Veritas the compulsive truth-teller. "President Eisenhower hinted at it back in October when he assured the Russians we would not use the Hungarian revolt as an opportunity to invade. This statement by the President (later repeated in Paris by Secretary Dulles) was not popular among the preventive warriors and rabid Red-haters. But it was statesmanship as far as it went, and it should have gone still further. Today it's become a cliché to say that a wounded Russian bear is more dangerous than a bear not wounded. But it's also true that a wounded bear is a frightened one. By soothing its fright we stand to make some gains for relaxation and peace in East Europe."

The other historical fact about Russia would be her century-old yearning for a Mediterranean port.

"If we face up to the truth," said Veritas, "we must admit that Russia will continue to agitate for warm-water ports no matter what kind of government sits in Moscow. Instead of forbidding and frustrating Russia's desire for a Mediterranean outlet, it might pay us to weigh this desire on its economic and historical merits."

"It sure would," agreed Veritas. "But the man who pulled atoms for peace and aerial inspection out of his hat might have another daring and original thought there. He doesn't deserve any prize for his copy-cat Middle East proposal of more arms and more alms. His admirers have a right to expect more of him than that."

these will do." And as the committee returns to the search for another year, the explosive events of Europe and the Middle East underscore their trials.

We got bridges, we got lights, we got many other things. So what is there to gripe about today to boost Palm Springs? It seems we have everything here in Palm Springs. Everything, that is, except, perhaps a few more customers.

Cannot think of a thing to complain about — which is rather unusual — but maybe that's because of that good feeling after that satisfying lunch I just had at rejuvenated Oscar Gilbert's Town and Country.

THEY'RE STILL TALKING about those new lights on Indian Avenue. One man complained. Said the city should have staggered the lights. Instead of having them all on one side of the thoroughfare, alternated them on either side.

The guy on the next stool, John Archibald, objected.

"You said staggered," he said. "Which reminds me. How about an oil-citizen who staggers? From one lamp post to the next? Would you have him criss-cross the street, a temptation to motorists?"

Yeah, and also think of the menace to our canine friends if they had to cross the street between every lamp post.

HERE'S A STORY they credit to Raymie, up at the Dunes. Seems a landlord told his tenant:

"I am going to have to raise your rent."

"That's fine," said the tenant. "You go ahead, raise my rent. I can't."

John Norman of KDES has a sort of theme song which includes his name. They sing "Norman, Norman, Norman."

It's a good thing Don Klotz-buecher or the Hon. Phat Graettinger are not on a program like that. Just try that for sound!

ANYBODY HERE with \$1.06 they want to donate to the City of Palm Springs? Probably tax deductible.

Total cost of the new city hall was listed by council as \$330,451.06. A contribution of \$1.06 would bring that figure down to round numbers. As round as the roof of the entrance to the new city hall.

The way the Russians are claiming to be first in everything such as inventing the telephone, electric lights and so on, one of these days they'll lay claim to having invented vodka.

Which reminds me of the girl in one of our local lounges who said to her companion:

"I don't see how the Russians do it. Every time I drink vodka, I say 'yes' to everything."

AT LAST, I have thought of something to complain about. That is our public transportation system.

I think the various bus companies in the southland should get together and synchronize their schedules.

For instance, if you want to go to the south coast beaches, anywhere from Laguna to Long Beach via bus, you have but one close connection each day. If you leave here via Greyhound at 1:40 p.m. you get to Riverside at around 3:20 only to find that the bus of another company, the last until late in the evening, left Riverside at 3:06 p.m., for the beaches.

For the public, I think a 14 minute change would be worthwhile.

DR. BENJAMIN GOLDBERG

Auto Accidents—A Medical Problem

The recent four day festive holidays at Christmas and New Year's were given considerable attention in the very high mortality of automobile travel. The present accident rate involves a death every 14 minutes and an injury every 25 seconds on the highway today. This makes automobile accidents a matter of major importance affecting more persons than does all illness today.

Driving is a fine, habituated co-ordination of hands, feet vision and hearing. In today's traffic conditions a driver must be ready to make quick judgments of rapidly changing space-time relationships.

Thus, if two cars are approaching at 30 mph and one driver loses control when they are 45 feet apart, the drivers have just 60.5 of a second to react or only time enough to put a foot on the brake pedal. It would be impossible to stop the car.

Forethought, planning and appreciation of hazards are major factors in ability to drive. More continuous attention from moment to moment is required of the motorist than of an airplane pilot. It is not surprising, therefore, that 80 to 90 % of all auto accidents are attributable to driver failures—distracted attention, diminished alertness or decreased consciousness.

At holiday times these failures increase absolutely, because of the general gaiety of the times which removes alertness, producing relaxation and affecting driver behavior and efficiency which then come into play. The most important of these are the effects of fatigue, alcohol, tobacco and medication.

As fatigue sets in due to a decrease in the blood sugar level and deficiencies of hormone production, vision tends to suffer badly, and eye muscle function in movement is disturbed. Lapses in concentration are also evident. The tendency to maintain alertness to essential in the speeds of the highway disappears.

A skilled driver responds to the coordinated reactions which are

evident in vision, hearing and resulting action. Since driving is so much a matter of skill rather than of immediate muscle reaction it is through such skill fatigue that the driver places himself into the fatality statistics.

The driver thinks he is doing well but actually he is progressively worsening. He will perform a correct action, foot-to-brake, for instance, but at the wrong time. These signs are what are termed as "sleeping at the wheel" after an accident.

As skill fatigue piles up, errors of visual perception increase. A sign indicating posted speed may mean nothing or a traffic signal may fail to register. At times, when the driver fights to keep awake, the monotony induced in the fatigue produces a form of hypnotic hallucinations.

Variations of this hypnosis occur on expressways or turnpikes, where the steady driving at high speeds on straightways creates a mental distortion of the realities of environment.

Other conditions which increase the seriousness of driving may be listed. Alcohol ingestion impairs the driver's gross efficiency and removes his sense of finer judgment, lessens visual sensitivity and decreases the peripheral vision.

Tobacco smoking is also a deterrent to safe driving. This is due to the presence of carbon monoxide in tobacco smoke. It increases the pulse rate and blood pressure.

Drugs may create abnormalities, especially the many new antibiotics and sulfa drugs as well as the anti-histaminic substances which are commonly taken for allergy or colds.

Driver stability may also be determined on accident repeaters, that is, individual who are prone to have accidents at frequent intervals. Such individuals are found to suffer from recurrences of anger, frustration, depression, and exaltation. Emotional upsets must therefore be controlled or limited.

There is no doubt that publicity in newspapers for a commercial establishment, club or hotel does pay off and properly accomplished makes an impression on a reader.

Which is a round about way of saying that many of our clubs and hotels hand free tariff rates to many of the Fourth Estate who come from out-of-town but who never do anything for the host or the town, or if they do quite often take a slap at Palm Springs.

In the years that I've been here have met many a great newspaperman and/or columnist. Many of them have left the city charmed and delighted with Palm Springs and the people they met here. But there is a good percentage of them who come down here and never have anything but a lost weekend.

DURING THOSE endless hours spent bending the elbow and looking through the glass filled with amber fluid, they conjure many ideas that are as alien to Palm Springs and its resort area as an elephant is native to the desert.

Remember when Herb Cain, San Francisco Examiner, visited our town and was chagrined because it rained for a couple of days. He went back to his San Francisco and wrote nothing but nasty things about Palm Springs.

The other day I reported that a columnist for a Hollywood newspaper gave our town a bad report. I could go on indefinitely about this type of reporter or columnist, but what's the use. My only hope is that when these gentlemen are invited down to Palm Springs that the host or hostess be sure that they learn something about our fair city and are brought in contact with people who know the desert and our population.

SUNDAY I MET for the first time Mr. Roy Fey, who recently completed the Desert Skies apartment hotel on South Palm Canyon Drive. I learned that this beautiful place cost more than a half million dollars to erect but that isn't going to be enough for Mr. Fey.

Just as soon as the current Winter season is over, he is going to

start the construction of no less than a 100-room hotel right next door to his apartment hotel.

"I'm sold right down to the narrow of my bones on this Palm Springs," he said. In addition, Fey who is the manufacturer of trailers in Chicago, purchased a beautiful home here and plans to erect a trailer plant on a 15-acre plot of land in Banning. We are getting more and more of these good people in Palm Springs.

EARL WILSON:

Judy Made 'Em Stand Up

NEW YORK — You can't help loving that Judy Garland—not that I'm trying.

Judy threw a party on stage at the Palace after her big, happy, boisterous closing night audience gave her a standing ovation and farewell salute. It was a fantastic crowd that shouted across the footlights to her, sang "Auld Lang Syne" with her, and even cried with her when Judy, in her stocking feet, sort of gurgled as she said, "I wish I didn't have to go away. But I'll be back soon—you wait and see."

Judy communicates with the crowds by being personal—by saying little things like, "Don't you think it's hot in here? Charlie, open the door a little"—and if her voice should ever be lousy (God forbid) they wouldn't care . . . or even notice.

I asked Judy at the party (rubbing shoulders with Moss Hart, Smith & Dale, Fred F. Finkelhoff, and Gene Courtney) if it wasn't unusual for the crowd to stand up for her. "You know," she said, "I bet somebody paid them to do that."

Elvis Presley urged Monique Van Vooren to stay at the same hotel he does in Hollywood . . . Lillian Roth, who opened at the Plaza last week, is a frustrated dramatic actress. "I did one TV role on 'Matinee'—I guess the good Lord just wants me to do one a year and then shut up," she says.

Fernando Lamas was surprised on his 37th birthday by his wife Arlene Dahl, with a party at Sardi's. Lamas was lured to Sardi's upstairs by William Fields, press agent of "Happy Hunting," who told him he had to meet a West Coast newspaper man there. Lamas was rebuking Fields "for not being able to get a table downstairs" and telling him "It's bad for your prestige," when Arlene and the others began yelling "Surprise!"

Erroll Flynn says, "At a certain age you want to attempt to try to do something worthwhile." He hopes to star in and produce "Cardinal Richelieu," last performed in America by Edwin Booth some 75 years ago—tying it up with the Hungarian crisis. "I'm very serious," he says . . . Taffy Tuttle told Lee Segall, the Dallas producer, "Texas is a place where men are men and women are women, and it's not a bad setup."

"THINGS GONE for the 'Do You Remember?' file: Ice cards, Saturday baths in the washbasin by the kitchen stove, mosquito netting, livery stables where you could rent a horse and buggy, unsliced bread, the postman blow a whistle when he delivered your mail, Indian suits, wood sheds, grape arbors, home funerals, Lone Scout, cracker bowls, corn-pone, copper-toed

shoes, cream on top of the milk, side curtains for autos, and limousines with flower vases in the seat.

All from Dr. R. W. Masters of the Indian State Teachers College, Terre Haute.

Dick Haymes is recovering from his black eyes at Miami's Racquet Club . . . A tough-guy film star entered a local hospital to fight his booze problem . . . Mike Wallace's TV'er will get a soap sponsor.

Julie Andrews of "My Fair Lady" won't make a March vacation, after sexy Rexy returns . . . The "Jeanne Eagles" movie won't be filmed here—too many landmarks of the '20s have disappeared.

Well, here at school, now is the time when visions of final exams dance in our heads. It won't be long now before report cards are handed out, and that means boning up for the many finals which

proceed them. The finals will begin Jan. 30, and continue through Feb. 1. Then we catch our breaths and wait for our cards which come out. So between now and Jan. 30, you can bet that midnight oil will be scarce, because so much of it will be burning.

LOOKING A little into the future, three big events are looming on the horizon.

On Feb. 9, the "Sweethearts' Ball" will be put on by the Girls' League. The dance, which is being held at the Youth Center from 8 to 12, is semi-formal.

Feb. 23, the senior formal will be held in the American Legion hall. The time has not yet been set.

Palm Springs High School will be represented on television Feb. 24. The program is "Who Knows That?" on Channel 13, Sunday morning from 9 to 9:30. At that time, students chosen carefully from the entire general science enrollment of the high school will make their appearance.

Three boys and three girls will be representing the science department, and their teacher, Robert Bourquin, also will be on the program. The six students, chosen for their ability and knowledge in the general science field will perform in a program of discussion and demonstration. The students and Mr. Bourquin will travel to Los Angeles where the program is presented "live."

Douglas Recovered From Dog Bite

Actor Kirk Douglas has "recovered" from his mild case of dog bite, his wife reported today.

The dog was located yesterday by Humane Officer Bill Mueller and is now under two weeks quarantine to determine whether he has rabies, thus sparing his victim the ordeal of undergoing the painful Pasteur rabies treatment.

Douglas, now on his way to New York, was bitten on the left thigh near his home, 1069 Marshall Way. Although Douglas reported the bite was not serious, he was given a tetanus injection as a precautionary measure against infection. He received a second shot before taking off for New York.

New Business**

Ernest Ostler of Ostler Paints in Palm Desert, who opened his paint and wallpaper store last October, announced today that he is now carrying a complete line of his own paints, especially blended for desert use.

**Unusual Moonlight Lectures
On the Dunes Are Scheduled**

Unusual moonlight lectures on the dunes have been announced by Marjorie B. MacFarlane, famed psychologist, metaphysician and artist. Mrs. MacFarlane has returned to the desert after an absence of 3 years, to make Palm Desert her home.

She is well known in this area, having lectured and counseled at the Desert Inn, Smoke Tree Ranch, House of Murphy, Town and Country, all in Palm Springs, and at Sans Souci in Indio.

She has also lectured, taught and entertained in Lake Arrowhead, Laguna and Pasadena.

She is a leader in the modern School of New Age Thought called "The Temple of Dynamic Truth," studying the Metaphysical and the Esoteric.

She will hold classes each Monday night at the El Basame Mucho Center in Palm Desert, and each Thursday night in Indio.

Her special "moonlight on the dune" lectures will be held each night of the full moon after dinner at Okerlund's west of Indio. All interested persons are invited to call 76-2922, for evenings for full information.

From Okerlund's the group will travel to the nearby dunes where a varied program will be presented.

Marion Nordstrom of Indio will sing "Open the Gates of the Temple," accompanied by Arlette Nelson of Coachella.

There will also be group singing, and a meditation by Isabelle Parker of Palm Springs, preceded by a dramatic selection by Rosemary Williams of Yucaipa.

**Photography Salon Exhibit
Set for Riverside County Fair**

All pictorial photographers of Southern California are invited to participate in the first annual photographic salon exhibit at the Riverside County Fair and National Date Festival in February.

Sponsored by the Wind and Sun Council of Camera Clubs, an affiliate of the Photography Society of America, the exhibition at the county fairgrounds at Indio will consist of the best 100 prints submitted.

William King of Beaumont, exhibit chairman, announced this week that closing date for entries is Feb. 7, and that judging will take place on Feb. 9.

PRINTS SELECTED to hang will be on display during the nine days of the fair and festival, Feb. 16 through 24, in the Educational Building. A special gallery is under construction for the exhibition.

King listed the following rules for entrants in making his announcement:

All entries must be sent prepaid and return postage, together with entry form, must be mailed under separate cover, either attached to the package of prints or mailed separately.

A MAXIMUM OF four prints of any size, mounted on standard 16 by 20 inch mounts, either black and white or toned by photograph.

The obedience course runs for five weeks, with classes every Wednesday and Saturday. Class time this Wednesday is 6:30 p.m.

Young dog owners are particularly invited to join the class. Kinnaman said. Fee for the course is \$15, or \$1.50 for each class.

Driver's License Charge Dropped Against Youth

Sixteen-year-old John Wallace Moore today faced one less charge resulting from the Friday auto crash that sent five persons to the hospital. Moore was originally charged with running a boulevard stop and driving without a valid license. However, police said today that a check with the motor vehicle license bureau in Sacramento revealed the youths license was valid.

Police explained that the license carried by Moore was mutilated to the point where it was illegible. The youth and a friend were injured when Moore's auto allegedly ran a boulevard stop sign and crashed into a car driven by Mrs. Antoinette Sims, of Desert Hot Springs, at Indian Avenue and Vista Chino.

Mrs. Sims is under treatment for internal injuries at Desert Hospital, where her condition was reported "good." Sims and his companion were released after emergency treatment. Two other crash victims with minor lacerations did not require hospital attention.

Swept-Wing Dodge... only 4 1/2 feet low and all dynamite!

Step into the wonderful world of AUTODYNAMICS
It breaks through the vibration barrier!

It unleashes a hurricane of power
It tames a tornado of torque
It is swept-wing mastery of motion

Right off the bat, you'll realize there's something entirely different about driving the new Swept-Wing Dodge. You know it's the slickest piece of live action you've ever driven. The most responsive and easiest handling, too.
But the thing that really hits you is the silence! Why, all the irritating noises, all the annoying road sounds common to automobiles have vanished!
For Autodynamics has introduced a revolutionary new suspension system — Dodge Torsion-Air —

that cushions you in a "Realm of Silence." Thick cushions of "live rubber" isolate engine vibration, noise and road shock at its source.
Actually, everything is new in the Swept-Wing Dodge — from new race car torsion bars to new Push-Button TorqueFlite, from new 310 hp. V-8 engine to new Total-Contact Brakes.
This is Autodynamics in action... yours in the most exciting car that's ever come up the pike. See and drive the Swept-Wing Dodge today!

CALYPSO MUSIC and dancing by the Archie Savage troupe of singers and dancers, furnished the West Indian atmosphere that marked the Night in Trinidad party at the Ranch Club Friday night. A capacity crowd dined and danced and watched the colorful floor show.

Ogles Host Dinner in Celebration

Celebrating the first anniversary of their meeting at the Racquet Club a year ago, Mr. and Mrs. Alden Ogle (she's the former Edie Logan) entertained a group at dinner at the Club Sunday evening. The party honored Marjorie Pohl, Racquet Club publicist, who had introduced them.

Vera-Ellen and her husband Vic Rothschild were among the guests. Winsome Courtney, who had entertained the same group earlier at cocktails at the Desert Inn, was escorted by Howard Lang. Other guests were Lynne Jennings, Paul Carlson, Bob Taliaferro, Anne Rubin and David Vickor.

That same evening at the club, the Lester Seligs were dining with their houseguest Edith Luce of New York, and Robert Maslo. With the Ben Shearers were the Torchy Torrances.

The Clark Perrys had as their guests Mr. and Mrs. Fred Talbert.

Cahuilla Chapter D. A. R. Meets

Cahuilla Chapter D.A.R. held its January meeting on Thursday at the home of Mrs. Frederick J. Watson.

After the dessert luncheon, most of the time was given over to discussion of work being done by each chairman, covering a wide range, and the coming state conference at the Palace Hotel in San Francisco and the national meeting which will be in Washington at Constitution Hall in April.

Mrs. William J. Schwartz was program chairman for the day, presenting an inspiring patriotic recitation given by Donivee Ellison, Palm Springs High Student.

The Regent, Mrs. A. K. Paul, presided and, following adjournment there was a social half hour.

Mrs. Talbert is the former Natalie Guggenheim, a director of the Guggenheim Foundation and daughter of the chairman of the board of Kennicott Copper.

Numerous Parties At The Chi Chi

Mrs. Joseph Goldberg was celebrating her birthday and was hostess to a party of 14 guests.

Lovely star Anne Francis was at the show escorted by Jerry Nathanson. Eva Gabor and her mother Jolie were in with Hal Hayes. Mrs. Elsinore Machris Gilliland entertained a party of six out-of-town guests.

Calypso Dancing At Ranch

The drums were beating and feet tapping to calypso music Friday night as the Palm Springs Ranch Club staged its annual "Night in Trinidad" party.

The Club which had been decorated in West Indian style, was filled to capacity. Against a tropical island background, Archie Savage and his troupe sang and danced exotic calypso dances. Bright-colored native garb added theatre to the show.

Stan Ellison's orchestra also played and Clessa Williams and Duke Mitchell sang.

Willie and Trav Rogers, who were celebrating their 38th wedding anniversary, arrived escorted by a group of friends from El Mirador, who had piled into a bus and gone out to serenade the Rogers.

Mr. and Mrs. Noel Clarke had as their guests the Glenn Austins, Martha Ellis, Scotty Rubin and Grace Rauche.

Actress Joan Davis was there, and others in the crowd were the Bruce Burritts and Homer Hilltons; Winsome Courtney escorted by Howard Lang; Commander and Mrs. John C. Bernet; Pat Fitzgerald, Don Gow, Phil Breedlove; and many, many more.

IT'S A SOLEMN OCCASION when a little fellow is a year old (365 days) and gets a whole cake for himself. Young Cameron Cameron and his parents celebrated what was otherwise a gala day on January 10 at their Thunderbird home. The solemnity didn't last long and Cameron leaned over and took a bite out of his first birthday cake. (Desert Sun Photo).

ARTHUR ELROD, LTD., 886 North Palm Canyon Dr.

THE SUNDAY BRUNCH given by the Howard Morris celebrated the 17th wedding anniversary of the hosts. Two special guests were Dr. Robert Bingham, who is in charge of the post-polio ward at Riverside Community Hospital, spoke Friday before the meeting of Pathfinders which was held in the home of Mrs. William Malouf. The medic gave a complete explanation of the needs for polio victims in the nearby Angel View hospital in Desert Hot Springs, where the doctor donates part of his time each week to the children who are patients there.

Plan Two Big Events For Charity

Dr. Robert Bingham, who is in charge of the post-polio ward at Riverside Community Hospital, spoke Friday before the meeting of Pathfinders which was held in the home of Mrs. William Malouf. The medic gave a complete explanation of the needs for polio victims in the nearby Angel View hospital in Desert Hot Springs, where the doctor donates part of his time each week to the children who are patients there.

Pathfinder group is looking into the needs of children in the area and plans to raise funds to assist where the need is most urgent. They voted to have an Indian costume ball, as the group derives its name from the Indians. The Pow-Wow, as the ball is to be termed, is set for April 29 on the tennis courts at the Tennis Club. Further plans will be announced later for this fun, outdoor party to raise funds that small children once again may play and live in the outdoors.

Immediately following the Pathfinder meeting, members of WAIF Chapter of Palm Springs assembled to plan their spring formal ball to raise funds to bring orphans into this country for adoption. The two groups, Pathfinders and WAIFs, inter-lace in program, as they truly are a group within a group.

Mrs. Malouf, president of the Palm Springs Chapter of WAIF, conducted the latter meeting and announced the WAIF formal ball was set for Saturday, March 9th at the Tennis Club.

Visitors Honored At Party

Honoring their houseguests Commander and Mrs. Jay Sorenson (he's just been transferred to Los Alamitos), Commander and Mrs. Maurice Horner entertained around 60 at cocktails at their Via Las Palmas home Saturday night.

There was an hors d'oeuvre table, and guests were entertained by the guitar music and singing of Don Martine, and wound up dancing.

Among the Hornes' guests were Messrs. and Mrs. Henry Dollard, Walter Sibbert, Kirk Yerkes (Iowans who are visiting the Sibberts), Irving Synders, P. A. Staley, Ed Houghton, William Reichel, Howard Morris, Co Thornton, Sydney Schiff, John Costello, Edna Fallgren.

Also: Misses. George Roberson, Charles Becker, Millicent Rothacker, Bertine Treat, Janet Essroger, and Mr. E. Roy Fitzgerald.

NEW MEMBERS of Pathfinders, Mrs. John Costello, on left, and Mrs. John Dawson, on right, were welcomed into the organization at a meeting held at the home of Mrs. W. B. Malouf on Friday.

With them is Dr. Robert Bingham, who addressed the meeting, presenting needs of Angel View Child considered as a Pathfinder project. (Desert Sun Photo).

TODAY'S SPORTS PARADE

By OSCAR FRALEY
United Press Sports Writer
Reg. U.S. Pat. Off.

NEW YORK — Happy-go-lucky Roy Campanella laughed off two cuts today "because the one on the hand hurt the most and it's all healed now."

Operation necessary to remove bone chips. The other was a \$5,000 salary slash which means he'll receive "only" \$37,000 to catch for the Brooklyn Dodgers next season. "I just feel so good today," gurgled the roly-poly receiver in his high-pitched voice, "that I feel like I could play forever."

CAMPY ADMITTED that he figured the Dodgers would win the pennant again next season despite the loss of Jackie Robinson.

"Sure, he'll be missed," said the chubby catcher. "But they missed me last year and they won."

Roy, three-time Most Valuable Player in the National League, was referring to a season in which he hit only .219 and because of his crippled hands was not highly effective in any way.

Campanella underwent surgery on his right hand after the Dodgers' post-season tour to Japan. "Last season it hurt so bad I couldn't hardly grip the bat," he

recalled. "But I've been swimming a bat in the basement and there isn't any pain at all."

"OF COURSE," he quipped. "I always say it feels good when there is nobody pitching to me. But, honestly, the hands feel great and I'm highly optimistic."

Campy has precedent on his side as he looks forward happily to the prospect of a fine season. In 1950 he batted only .281. The next season he won MVP honors. In 1952 he dropped to .269 and bounced back the next season to again take most valuable honors. Then it was down again in 1954, when he batted only .207, so he came back to take the MVP prize again in 1955.

"So this should be my 'on' season," he chuckled. "And one thing sure, it's going to take them a while longer to get me out of there. As long as I feel as good as I do, and have the desire to play that I have, I'm gonna keep right on playing baseball."

MANTLE WANTS 60 GS FROM YANKS—OR ELSE

(By UNITED PRESS)

Mickey Mantle is shooting for a \$60,000-or-better salary and by way of warming up for it he has fired his first contract right back at the Yankees.

The Yanks' first offer, containing a \$50,000 raise, left him cold. Mantle admitted Monday night in Baltimore where he was honored as baseball's outstanding hitter in 1956.

"I sent the contract right back to them," he said. "It wasn't signed, so I guess they knew how I felt about it."

While the 25-year-old center field sensation who won the American League's "triple crown" last year did not reveal terms of the contract he sent back it was learned that it called for a \$50,000 raise over his 1956 salary estimated at \$32,500.

The Yankee offer would boost Mickey's pay to \$37,500 this year. "I haven't announced the figure

I have in mind to any of the newspapers and I don't intend to," Mantle declared. "But that contract they sent me was nowhere near it."

As a banner box-office attraction who batted .353, drove in 130 runs and hit 52 homers to lead the league in all those departments last season, as well as win the circuit's Most Valuable Player award, Mantle feels he's entitled to at least \$60,000.

The Yankees realized he probably would turn down the first offer but they wanted to establish a price from which they could bargain. The highest salary Yankee player currently is Yogi Berra, who will receive an estimated \$55,000 this year. Joe DiMaggio's \$100,000-per annum was the highest player salary ever paid by the club. Mantle and the Yankees probably will get together in the \$45,000-50,000 range.

Next move is up to the Yankees.

Startling Upsets Hit Kansas and Kentucky

North Carolina Now Only Unbeaten Team in Major College Cage Ranks

By UNITED PRESS

Thundering upsets that rocked both Kansas and Kentucky left North Carolina today with the only perfect record among the nation's major college basketball teams and with a golden opportunity to seize the No. 1 national ranking. Lightning struck at Ames, Iowa, in the form of a last-second, 20-foot basket by Don Medskers to give Iowa State a 39-37 upset of Kansas' first loss of the year in 13 games.

And at New Orleans, Tulane led almost all the way to upset Kentucky, the nation's No. 3 team, 66-60, for the first time since 1938, leaving Coach Cliff Wells to gasp "This hour will do us the rest of our life."

Wilt The Stilt Chamberlain, Kansas' sensational sophomore who leads the nation's scorers, was held to just 17 points by Iowa State but, even so, nearly saved the Jayhawks when he tied the score at 37-37 on a pair of free throws with seven seconds remaining to play.

But then Iowa State drove down court and the 6-foot, 8-inch Medskers cut loose with his game-winning shot from near the jump circle as the game ended. It was sweet revenge for Iowa State which bowed to Kansas, 58-57, in a game in the Big Seven pre-season tournament last month.

These two surprises put things

squarely to second-ranked North Carolina tonight when it visits arch-rival North Carolina State.

If North Carolina can win tonight, it will then have a two-week rest before plunging into the final eight games of the regular season, all against teams it will already have beaten before.

Americans Too Pottle Conscious in Their Cooking Habits, Diplomat Turned Cooking Expert, Report's

By AL LE ANCE

Trouble with American cooks is they're all bottle crazy.

That's the way Nicholas Roosevelt tells it, and he's garnered enough global gastronomic experience to back it up.

Roosevelt's one time globe-trotting newsman turned gourmet, looks at a bottle of ketchup the way a revenue agent eyes a bottle of moonshine.

"It's all right if you've got the taste for it," Roosevelt explains, "but it's nothing but a cover-up for the real thing."

What Roosevelt means is that American cooks have a knack for preparing some of the world's most tasteless food, and their shortcomings in food seasoning are glossed over with too much of that red stuff.

"Instead of thinking of what they can do to brighten the flavor of their food," he claims, "they pile on ketchup or chili sauce."

This all-too-common practice is visibly painful to one of the nation's top off-the-cuff seasoning experts. Roosevelt feels there is no substitute for imagination—the kind of imagination that works stew-pot wonders.

Cooking is a creative art to Roosevelt, and the process of transforming just plain edibles into mouth-watering table fare for the family—on a budget yet—is carefully outlined in Roosevelt's latest book, "Creative Cooking," published last fall by Harper.

The book is the product of taste-bud experience garnered across the tables of restaurants, homes and embassies stretching from the South Pacific, through the Far East and the European Continent in more than 20 years of world traveling.

Roosevelt, energetic 63-year-old representative of the famous Oyster Bay clan directly linked to President Theodore Roosevelt (first cousin to the author's father), inadvertently rose to his post as an ex-officio culinary expert through the State Department.

Now more-or-less retired to his isolated hillside home in Big Sur, near Monterey, Roosevelt followed his graduation from Harvard as an attaché to the American Embassy in Paris and secretary to the American mission in Spain from 1916 to 1917.

He served as an infantry captain in World War I, vice-governor of the Philippines in 1930 and U. S. Minister to Hungary from 1930 to 1933. In between, he worked as foreign correspondent and editorial writer for the New York Herald Tribune and the Times and until he moved to California 10 years ago, was assistant to the editor of the Times.

Roosevelt catalogued much of his diplomatic knowledge and experience in his latest book, "Creative Cooking," published last fall by Harper.

"I like good, simple food, tastefully prepared," he explained. "Too many restaurants use too many frills and prepare too many fancy dishes."

The best food in Roosevelt's memory is the simple country fare of France, where you'll find the maestros of the saucepan and spice chest.

Proper seasoning is the crux of any meal, Roosevelt pointed out, and even the most basic vegetables come alive under the proper guidance.

"But that doesn't necessarily mean garlic," Roosevelt remarked. "Some garlic fanatics insist that garlic is even good on ice cream, but one should draw the line somewhere."

A little garlic goes a long way in Roosevelt's kitchen, which is one place in the Roosevelt household that operates on a definite double-standard.

All the Roosevelt breakfasts are prepared by the author, who also takes care of the sauces and seasoning. The rest of the cooking is in Mrs. Roosevelt's province—and both her strictly to their own trades.

Roosevelt makes no claim to being an expert when it comes to dishing up off-beat recipes and culinary secrets.

"If you'll notice, my book has little to do with recipes," he said. "It's just well, a book about cooking, and the way I like to eat."

Minnesota's tourist business brings in 294 million dollars a year, making it the state's fourth largest industry.

What Roosevelt means is that American cooks have a knack for preparing some of the world's most tasteless food, and their shortcomings in food seasoning are glossed over with too much of that red stuff.

"Instead of thinking of what they can do to brighten the flavor of their food," he claims, "they pile on ketchup or chili sauce."

COOKING IS STRICTLY an art to Nicholas Roosevelt, former newsman turned gourmet, whose latest book, "Creative Cooking," presents an amusing and entertaining doctrine of culinary experiences. Now relaxing on a month-long vacation at The Ingleside Inn in Palm Springs, Roosevelt plans to sample the board of several resort restaurants.

Chances are he won't find anything like Mr. Blot's advice on frogs as breakfast food, the seasoning of buffalo or the proper way to skin a skunk, as outlined in the index of his book.

But he may discover a few surprising items for "Creative Cooking, Vol. II."

Area Motorists Warned of Feb. 4 Deadline; 2,165 Tags Issued to Date

Palm Springs area motorists were today warned that deadline for renewal of auto registration and application for 1957 license tags is Feb. 4.

The Department of Motor Vehicle Indio office reported it will stay open Saturdays until deadline time to speed up registration renewals. Penalties for late registration go into effect midnight, Feb. 4.

Motorists who receive the 1957 statement cards in the mail may pick up their red plate tags at the Bank of America, Palm Springs Branch, during regular banking hours, Monday through Friday.

The Palm Springs branch has issued 2,165 new tags to resort car owners since Jan. 1, Bob Hays,

supervisor of the bank's temporary registration department, reported. The bank started the year with a supply of 7,000 tags.

Space Expert To Be Forum Speaker Sunday

Arthur C. Clarke, noted interplanetary expert and author, will be the second speaker in the Community Forum Series at the Jewish Community Center, 332 West Alejo Road, at 8 p.m., Sunday.

Using slides to illustrate his talk, Clarke will trace a path to the planets and talk about the actual work being done on the first artificial satellite.

Among his books, which so far have sold more than a million copies in a dozen languages, are "Childhood's End," "Prelude to Space," "Expedition to Earth," "Interplanetary Flight," and "The City and the Stars."

In regard to his topic, Clarke said, "Space flights on a large scale are a definite possibility within your lifetime and mine. The launching of the first artificial satellite in 1957 is the initial step in a long-range program. In circling the earth indefinitely like an artificial moon, it will be the first object to repudiate the old saying that what goes up must come down."

Tickets for the lecture are available at the door, or by calling 5262.

BEL-AIR INTRODUCES 1st Major Improvement in Patio Cover Design in 4 Years:

VENTILATED PATIOS!

Practical! Effective! And attractive, too! Here it is: the first VENTILATED patio cover, designed, created, and tested by Bel-Air, and now brought to you at no extra cost! This exclusive method of construction is based on two very simple principles. One: hot air rises. Two: there's nothing more refreshing than a breeze. Applying these two basic principles to patio cover design, Bel-Air brings you THE FIRST AND ONLY MAJOR IMPROVEMENT IN PATIO CONSTRUCTION IN 4 YEARS.

Here's How It Works:

Under conventional patio construction, roof (A) has always been attached directly to wall (C). The result has been that a considerable amount of air has been "trapped," remaining motionless, in the area (B) below the patio roof and near the wall.

In Bel-Air's new Ventilated Patios, as shown above, roof (A) is separated from wall (C), and a separate roof structure (D) is positioned above and overhanging roof (A). Through the vent provided in this manner, air gently circulates up and out, as indicated by arrows. Fresh air comes in from the sides and front of the patio, and creates a gentle breeze.

This basic improvement brings a new measure of refreshing enjoyment to your patio living. Never before have patios been so COMPLETELY enjoyable!

Air-Cooled Comfort!

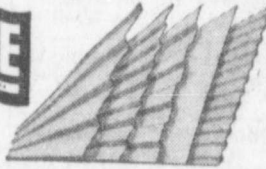

When Grandmother sat on her porch, in her favorite rocker, fanning herself, she knew that AIR IN MOTION was more refreshing, more enjoyable, than still air. Today, Bel-Air's new ventilated patios provide the same refreshing comfort and enjoyment of AIR IN MOTION!

Made with Genuine Rippolite

First quality genuine Rippolite fiberglass, in your choice of 5 architecturally correct patterns, each in 10 colors, to match or harmonize with your house and garden. Rippolite filters bright sun to a soft, pleasant light; keeps out heat and glare.

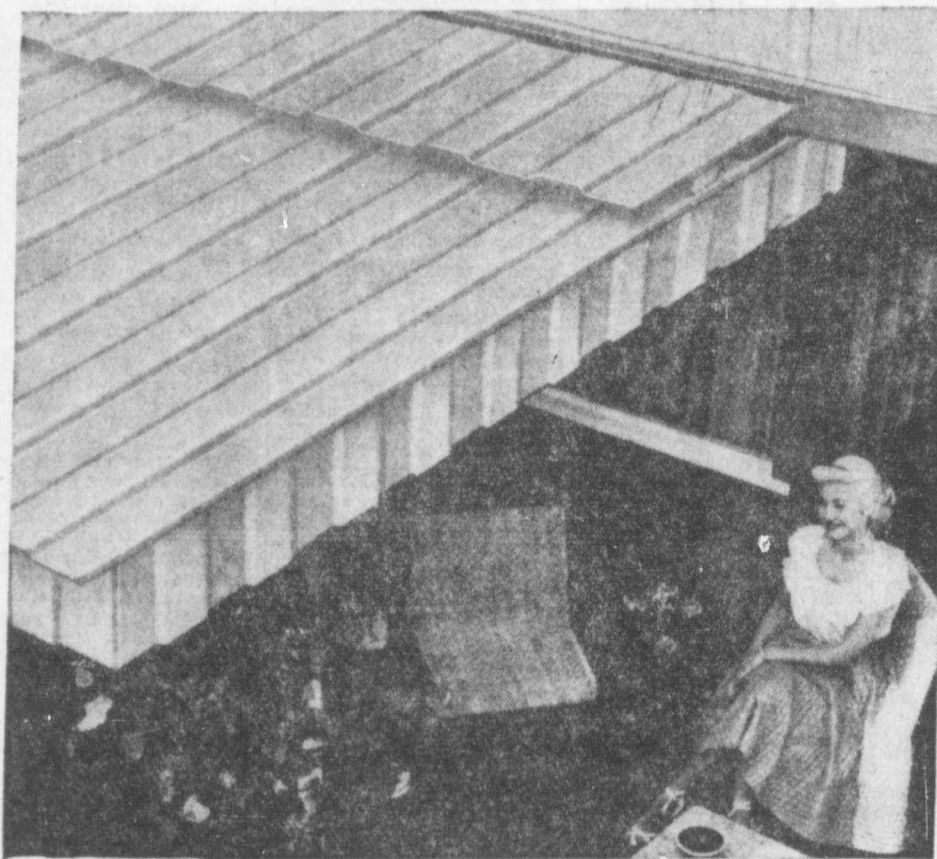

FIBERGLASS

The same patterns are also available in low-cost aluminum, if desired, with the same ventilated patio roof construction.

the only patio cover with "NATURE'S OWN" AIR CONDITIONING

A gentle breeze has always been Nature's own best air-conditioner. Very rarely does one find completely still air in Nature, and it is usually a condition of very short duration. Air in motion is "natural" air, comfortable air.

We wish to emphasize that the air in motion created by Bel-Air's ventilated patio construction is NOT A WIND, NOT

A DRAUGHT. It is a gentle circulation of air, which will, in most cases, be hardly felt. It can be easily SEEN: simply follow the course of cigarette smoke under a Bel-Air ventilated patio. The smoke will "drift" up, through the vent, and out. (This process can be observed even more dramatically when cooking with a barbecue under a Bel-Air ventilated patio roof.)

NO EXTRA COST!

Despite rising prices for material, payroll increases, and the extra expense of ventilated roof construction, Bel-Air is pleased to announce that the increased volume of business it has experienced during the past two years makes it possible

to bring you these new ventilated patios at no extra cost! Factory-direct prices, no "middleman" profits; no down payment; no payment until April; terms as low as \$5 per month; F. H. A. financing.
